ALFRED NELSON

SUNDAY, AUGUST 30, 1885.

"Sunset" and the Sultan are already good friends.

It is stated that Beecher will deliver the eulogy on Grant at Boston.

John Sherman's Ohio speech is the political talk of the hour—praised by some, condemned by others.

The President has decided to re-appoint Julius Stahel as Consul General to Shanghai, China. Mr. Stahel is now in Washington on leave of absence. He has served in the Consular service in China for ten or twelve years.

The New York World thinks the action of the Republican State Committee in adopting the basis of representation proposed by Jacob Hess has made the nomination of Levi P. Morton for Governor by the State Convention highly probable.

A claim has been filed in the Court of Claims by John M. Langston, ex-Minister to Hymti, for a balance alleged to be due him from the United States on account of his salary. His petition recites that the salary of the position is properly \$7,500, but that owing to the failure of Congress to appropriate the necessary amount, he received during the last three years and twenty-four days of his services only \$5,000 per annum. He sues for the balance, \$7,686.

The Bulletin says the country at the present time is in a state of political quiescence, more general than has been known for a long time. The State Conventions, which have so far been held, have dug up no new issues. There is a hysterical tone to some of the Republican platforms—very natural perhaps, under the circumstances. A party, after twenty-four years possession of the Federal Government, could not be expected to resign the reins in a very amiable frame of mind. In the Democratic platforms, on the other hand, there is a calm serenity—quite in contrast with the excited and fearful appeal of nearly a quarter of a century. It is not the business of the party in possession to formulate new issues. There is no more for it to do than to preserve what it has got.

Grant's Book.

It is stated that the orders given in San Francisco for General Grant's book, entitled "Personal Memoirs of U. S. Grant," are more than double those of any other work ever offered for sale on the Pacific Coast. Reports received Friday say that the publishing house has already received orders enough to assure the issuance of the first volume. The report received that the book would be issued immediately is positively denied by the agents in that city. It has been definitely fixed that the first volume will not be issued before December next.

Longevity of Public Men.

A London doctor has published some curious comparative statistics on the longevity of public and professional men. He found that the average age at death of the twenty-five most prominent American statesmen during the last hundred years was sixty-nine. The average of an equal number of English statesmen was seventy years—practically the same. He thought the latter did more work at an advanced age. The difference in favor of English, as compared with American, political life, was brought out by comparing the ages at death of members of the British Parliament with those of the United States Congress who died between 1860 and 1884. Of our Senators, fifty-nine gave an average of sixty-one years; one hundred and forty-six Representatives averaged fifty-five years, and the average of both was fifty-eight. The one hundred and twenty-one Members of Parliament averaged sixty-eight years at death.

There are 240 bones in a man. Man compares poorly with a shad.

A New "Hub."

The Grass Valley Union is mad. It says:

The Reno Journal runs a standing map of its town and the surrounding country for 200 miles. From this map a stranger to the country would be led to believe that Reno was the center of business for most of the State of Nevada and a large portion of California. Reno is in the exact center of the map and is shown by a number of squares being a fac-simile of the celebrated "15 puzzle." The other towns of Nevada and California are represented by very small dots showing that they are merely suburbs to the Pacific "Hub." The different lakes shown on the Journal's map are the sources from which the "Hub" draws its water supply, we suppose. There is one thing lacking, however, in this map—it fails to locate the volcano lately discovered in that vicinity. A new map should be immediately engraved, locating the volcano, and naming the burning mountain "Reno Gas Works." The map would then be complete.

The Sacramento Squatter Riots of 1850.

Professor Royce, late of Berkeley, now of Harvard, a California born and bred, and now engaged upon a history of California for the "American Commonwealth" series, gives the first fruits of his historical studies in a paper in the September Overland upon the Squatter Riot of 1850 in Sacramento. Professor Royce thinks that this is a very important event, a turning point in the whole history of Spanish titles and squatter claims in California; and he gives its history from this point of view with the utmost philosophy in analyzing the significance of the riot, yet with a most fresh and agreeable style, full of dry humor. It is the first full account ever given of the episode, and a most important paper.

The Geographies Withdrawn.

A. L. Bancroft & Co. have notified Nasby that "as the publishers of Harper's geographies are preparing new editions of the school and introductory which will bring the text and maps of Nevada up to date we have the permission of the Board of Education of Nevada to delay the introduction of these two books until January, 1886, when the revised edition will be ready." Agents will reship without delay the supply of geographies already sent.

Levi P. Morton is in the lead for the Republican nomination for Governor of New York. If nominated, he will be elected.
